

GITIKA CHAHAR

Delhi, India | +91-9560742704 | gitikachahar@gmail.com | [Linkedin](#) | [Github](#)

Pre-final year CSE (Data Science) student at NSUT Main Campus, seeking SDE / full-stack roles. Experienced in building AI-integrated MERN applications with real-world impact. Eager to contribute to high-performing engineering teams and grow in a structured placement environment.

EDUCATION

Degree / Board	Year	Institution	Score
B.Tech – CSE (Data Science)	2023–27	NSUT, Main Campus, Delhi	CGPA: 7.25
CBSE Class XII	2022	Nemichand Educational Academy, Agra	94.6%
CBSE Class X	2020	GBN School, Faridabad	93.2%

TECHNICAL SKILLS

Languages: C++ (Proficient), JavaScript (Proficient), Python (Basic), SQL

Frontend: React.js, HTML5, CSS3, Figma

Backend & DB: Node.js, Express.js, MongoDB, MongoDB Atlas, REST APIs, MySQL

Tools & Platforms: Git, GitHub, Postman, XAMPP, VS Code

CS Fundamentals: DSA (70+ LeetCode), DBMS, OS, OOPs

ML / AI: Basic ML concepts, OpenAI API integration, TF-IDF, SVM (scikit-learn)

PROJECTS

GrievanceAI — AI-based Complaint Management System | *React.js, Node.js, Express, MongoDB, Python, Flask, SVM, TF-IDF*

- Built a full-stack complaint management system that automates classification and routing, reducing manual effort by ~72%
- Trained an SVM + TF-IDF ML model achieving 89% classification accuracy; served via a Python Flask microservice with <1s response time
- Developed 10+ REST APIs for complaint submission, status tracking, admin dashboard, and email notifications
- Designed optimised MongoDB schema supporting concurrent users with admin analytics and reporting

AI Resume Analyser | *React.js, Node.js, Express.js, MongoDB, OpenAI API*

- Developed a full-stack AI-powered resume analysis platform that generates strengths, weaknesses, and improvement suggestions
- Integrated OpenAI API with fallback error-handling logic, ensuring 99% uptime despite external API rate limits
- Built secure REST APIs with JWT authentication; handled 200+ resume uploads during testing phase
- Deployed on Render with a live public URL; includes clean dashboard UI built in React

MERN Expense Tracker | *MongoDB, Express.js, React.js, Node.js*

- Built a full-stack expense tracking web app with user authentication, category filtering, and monthly summary charts
- Implemented 8 REST APIs for CRUD operations on expenses; integrated MongoDB Atlas for cloud-based data persistence
- Designed a responsive React frontend with real-time updates, reducing manual tracking time by an estimated 60%

Applicant Tracking System (ATS) | *MySQL, XAMPP, PHP*

- Designed a normalised relational database schema to manage end-to-end recruitment workflows for 5+ job roles simultaneously
- Implemented 12+ SQL triggers and constraints to automate data integrity checks, reducing manual errors by ~40%

- Built vacancy tracking, candidate scheduling, and interview pipeline modules streamlining HR operations

POSITIONS OF RESPONSIBILITY

Sponsorship & Logistics Member | Moksha'24, NSUT Cultural Fest | 2024

- Reached out to 30+ companies for sponsorship; held direct conversations with HRs and senior managers
- Coordinated logistics for 10+ events during the 3-day fest, ensuring smooth execution for 2000+ attendees

NSS Volunteer | National Youth Festival 2025 | Jan 2025

- Contributed 120+ volunteering hours across 2 months; managed on-ground coordination at a national-scale event

IEEE ExeComm Member | NSUT IEEE Student Branch | 2024–Present

- Active executive committee member; assist in organising technical workshops and seminars for the student community

ACHIEVEMENTS & ACTIVITIES

- Solved 70+ problems on LeetCode with focus on Arrays, Strings, and HashMap — actively expanding to 150+ before placements
- Scored 94.6% in CBSE Class XII — consistent academic performer throughout schooling
- Represented school at interschool level Chess tournament
- Completed 120+ hours of NGO volunteering over 2 months, demonstrating commitment to community service
